MEMORANDUM to [redacted] Central Intelligence Group

File 22569
JAY

Herewith is returned the draft directive you handed me a few days ago, with my comments. These comments may be off the beam because I have not been in the shop long enough to know the details of operation, nevertheless for what they are worth, here they are:-

a. General

(1) There is no statement anywhere in the draft on dissemination. While paragraph 7 brings up security measures I believe that there should be a statement to the effect that dissemination will be the sole responsibility of the Director.

topility matters and

(2) The Nuclear Energy Group is not specifically mentioned, which is satisfactory since Mr. Huddle will be fully cognizant of our operations and will bring us in when he deems necessary.

b. Paragraph 2 g of your draft has that weak word "liaison" which ties in with paragraph 2 e which says OSO shall be "consulted as necessary". This is not my responsibility but I must comment that in my experience, liaison and consultation with SO is not strong enough, I think it should be stated that OSO shall "advise and control" collection on matters pertaining to their type of operation.
